

## Working Student - Full Stack Developer, Flutter

### About Us

Detrauma is a brand new mental health app designed to deliver trauma (PTSD) treatment to people without access to a therapist. 1 billion survivors suffer from PTSD.

### Project Description

You will join us as a Full Stack Developer to build our Flutter app. This will result in our initial release on iOS, an updated version of [our Android app](#) and a new web app.

Tasks will include the full spectrum of front- and backend development. On the frontend you will liaise closely with product design to create an effortless UX and UI. Familiarity with available Flutter widgets, animations and design principles will help. On the backend key elements include establishing a scalable database architecture, utilising appropriate APIs, setting up GDPR compliant account management, and accelerating load times.

- Start: as soon as possible
- Time commitment: 20 hours / week; can evolve into full-time employment upon graduation
- Pay: €1,000.00 per month
- Location: office is in Potsdam Babelsberg; we also support remote working (we will provide G-Suite account)

### Qualifications

- Strong grasp of developing Flutter apps with Dart
- Strong instincts what resonates with users, what makes an outstanding UX
- An interest in digital health solutions

### **Apply by 15 October 2020**

If you're interested, please send your CV, GitHub profile and any apps you have developed to Jessica Mello at [jobs@detrauma.com](mailto:jobs@detrauma.com). Please include any tools and frameworks you are particularly familiar with.

Interested applicants can request free app code at [www.detrauma.com/beta](http://www.detrauma.com/beta).
